If you are facing issues with the installation of this. Sorry for poor quality screenshots. Volvodice.com steps guide how to install. A: After a month of experimenting, trying to find the answer, we finally have the reason for the issue: If you have Windows 10, and the 1605 Windows update, as well as the MS Security Center, which both provide Windows Defender, and any version of Windows Defender (including Windows XP) will disrupt VIDA connection. In the SafeMode, Windows Defender is always on, but it has no effect. You have to uninstall Windows Defender, and then VIDA will connect and function. Q: Issue on adding simple jQuery plugin I have a function that takes a string and adds the specified function to all elements that have an id that matches the string. For example: \$(".post-11").myFunc("msg"); \$(".post-12").myFunc("msg"); So far, the script works fine. But I'd like to add an exception for element with a certain class and that's where I run into a problem. I tried using this, but it didn't work if(\$(".post-11").hasClass("myclass")) { \$(".post-11").myFunc("msg"); } if(\$(".post-12").hasClass("myclass")) { \$(".post-12"). 2d92ce491b
