A: After you install the driver, you need to install a software called "RTAB" (Runtime Configuration Application Binary Interface). The program is available at this link. Then, you need to edit the registry with the correct path to the RTAB exe located in the root of the installation folder. You can find this path in the RTAB instruction document. Then, the procedure should be similar to the one described in the answer "Samsung fast gsm agere 1.0.0.2". If you're using a different modem in

---

your computer, you need to use the correct software that is compatible with your device in the program "WinXP (Computer) Modem Diagnostics". The software is available at this link. Q: Groups of order a power of a prime with a quotient of order a power of an odd prime I am studying for a qualifying exam and I cannot solve the following problem: Let  $G$  be a group of order  $a$  where  $a$  is a power of a prime  $p$  and with a quotient  $G/N$  of order  $b$ . Prove that  $a$  is a power of  $b$  and  $b$  is a power of  $p$ . Furthermore, if  $ab = a^r$  for some  $r \in \mathbb{Z}$ , then  $G$  is a normal subgroup of  $\text{Aut}(N)$  I have tried using Sylow theorems, but without success. I cannot use the theory of abelian groups since  $G/N$  is not necessarily abelian. Thank you for any hints or suggestions. A: Using the Sylow Theorem it follows that  $N = P_1^{\alpha_1} \dots P_k^{\alpha_k}$  is a composition factor. So the order of  $N$  is the order of a power of  $p$  dividing the order of the group. If  $a$  is a power of  $p$  the claim is true. Q: Vim editor in eclipse does not open in scroll I recently reinstalled vim-eclipse plugin. Since I am new to vim editor, I created a file test.txt by opening it with vim and committing it. I can not however open test.txt with vim in eclipse. It ba244e880a
